ABOUT MAXXONE

MAXXONE is a UK company specialising in the provision of custom-tailored and exceptional security solutions. We focus on the highest level of performance and functionality, in a way that makes security accessible and user-friendly.

Our research and technical teams work tirelessly to ensure that every **MAXXONE** solution is uniquely customised for every project. Our range of products are compliant with monitoring services such as Sentinel and Immix.

OUR VALUES

Today more than ever, strong business relationships are built on trust. Working together means a strong collaborative partnership where we are heavily invested in your success.

It's not just about short-term sales. We are dedicated to your growth, performance and results for the long-term.

You'll benefit from access to exclusive industry knowledge that'll keep you ahead of the curve.

You also get the full assistance of our UK team, including Technical Support, Marketing, Sales and Account Management to support your growth.

We win by helping you win.

CONTENTS

THE MAXXONE ONLINE TRAINING PORTAL

Does the thought of calling a technical support number make you frustrated?

☑ Supports Up to 4K Video Input

☑ 7-Inch Touch Screen Display

☑ Supports 80+ Custom IP Camera Protocols

☑ Built-In WiFi

☑ Bulit-In LED Flashlight

☑ Up to 10 Hour Battery Life

☑ HDMI Input & Output

☑ BNC Output

☑ Built-In PTZ Control Functions

☑ Network Testing Features

4 PORT POE SWITCH

Model Number: **M1-POE-SW004**

- ☑ 4x 100Mbps Ethernet Ports
- ☑ 2x 100Mbps Up-Link Ports
- ☑ ≤30W Per Port
- ☑ ≤65W Total Across Device
- ☑ IEEE 802.3af/802.3at
- ☑ Real-time LED Display
- ☑ Lightning Protection up to 4KV

PoE EXPLAINED

MaxxOne PoE switches have multiple ports that provide up to 30 watts of power.

Power travels down the Ethernet cable to devices such as Wireless Access Points, Voice over IP (VoIP) Phones and IP Cameras.

8 PORT POE SWITCH

Model Number: **M1-POE-SW008**

- ☑ 8x 100Mbps Ethernet Ports
- ☑ 2x 1000Mbps Up-Link Ports
- ☑ ≤30W Per Port
- ☑ ≤120W Total Across Device
- ☑ IEEE 802.3af/802.3at

- ☑ Real-time LED Display
- ☑ Lightning Protection up to 4KV

PoE EXPLAINED

MaxxOne PoE switches have multiple ports that provide up to 30 watts of power.

Power travels down the Ethernet cable to devices such as Wireless Access Points, Voice over IP (VoIP) Phones and IP Cameras.

16 PORT POE SWITCH

Model Number: **M1-POE-SW016**

- ☑ 16 x 100Mbps Ethernet Ports
- ☑ 2 x 1000Mbps Up-Link Ports
- ☑ ≤30W Per Port
- ☑ ≤250W Total Across Device
- ☑ IEEE 802.3af/802.3at
- ☑ Real-time LED Display
- ☑ Lightning Protection up to 4KV

PoE EXPLAINED

MaxxOne PoE switches have multiple ports that provide up to 30 watts of power.

Power travels down the Ethernet cable to devices such as Wireless Access Points, Voice over IP (VoIP) Phones and IP Cameras.

24 PORT POE SWITCH

Model Number: **M1-POE-SW024**

- ☑ 24x 100Mbps Ethernet Ports
- ☑ 2x 1000Mbps Up-Link Ports
- ☑ ≤30W Per Port
- ☑ ≤420W Total Across Device
- ☑ IEEE 802.3af/802.3at
- ☑ Real-time LED Display
- ☑ Lightning Protection up to 4KV

PoE EXPLAINED

MaxxOne PoE switches have multiple ports that provide up to 30 watts of power.

Power travels down the Ethernet cable to devices such as Wireless Access Points, Voice over IP (VoIP) Phones and IP Cameras.
